The perfect *scale* for any space

Step lighting

Scala

SCALA is a compact and versatile step lighting designed to perfectly fit any space. With IP68 certification, it is available in two sizes and three types of finishes (black, white, and stainless steel). Its recessed design makes it ideal for discreet integration, while its concrete installation accessory ensures secure and durable fixation.

CENTRALIZED POWER SUPPLY 24 VCC

IP 68 | IK 05

Compatible with the Central Battery System C24 and the Power Module for step lighting MA24-6.

Guide table for maximum number of step lightings per central unit (batteries not included).
